SOFT SKILLS

- Communication Skills
- Leadership Qualities
- Managing Skills
- Time Management
- Teamwork
- Ability to learn new technologies

PROGRAMMING SKILLS

- HTML
- R Language
- C
- Data Visualization

TECHNICAL SKILLS

- Knowledge of relational databases and SQL
- Problem Solving
- Competitive coding
- Software Engineering

LANGUAGES KNOWN

- ENGLISH
- TELUGU
- HINDI

HOBBIES

- Listening to music
- Drawing and Solving Rubik's cubes
- Travelling and Exploring
- Historical Research Enthusiast (like Ramayana, Bhagavad Gita etc.)

PROFILE SUMMARY

Motivated aspiring engineer and optimistic leader with a passion for problem-solving, looking for challenging possibilities. Eager to contribute innovative solutions.

EDUCATION HISTORY

Graduation

Course : BTech in Computer Science & Engineering (Data Science)

College : RVR&JC College of Engineering

Year of Passing : 2027

Relevant courses : Data Structures, DBMS, OS

CGPA : 8.5/10

Class XII

Board : AP Board of Intermediate Education

College : Vidwan Junior College (2021-2023)

Percentage : 96

Class X

Board : AP Board of Secondary Education

School : St. Ann's English Medium High School

Year of Passing : 2021

Percentage : 97.5

INTERNSHIPS

AWS Academy Graduate - AWS Data Engineering Virtual Internship (AICTE) Oct-Dec 2024

GOOGLE for Developers- Google AI-ML Virtual Internship (AICTE) Jan-Mar 2025

PROJECTS

Contact Form with Database Storage

Created a simple yet functional contact form that allows users to submit their contact information and a message. Unlike traditional contact forms that send data via email, this project focuses on storing the submitted information in a MySQL database using PHP. This approach mimics how many real-world websites handle contact form submissions, allowing administrators to review and manage inquiries directly from a database.

Tools: HTML, PHP, MySQL, CSS, JavaScript
